

CLOUD-BASED SOFTWARE  
FOR LAW ENFORCEMENT PROFESSIONALS

CAD | RMS | MOBILE | JAIL | CIVIL | COURT | CLERY

## RECORDS **MANAGEMENT** SYSTEM

**A user-friendly RMS product, purpose-built for the end user with robust features!**

As an administrator at your agency, you know that good reports aren't just about convictions – they're also key to keeping the doors open. State and Federal funding and policies are tied to programs like NIBRS. In other words, ensuring your Officers reports are up to standard is now more relevant than ever. You need a system that can walk them through those complicated requirements.

EFORCE® RMS is crafted to tackle these hurdles head-on. It makes reporting incidents and getting approvals a breeze, simplifies crunching numbers for stats and analysis, and takes inter-agency connections to new heights. With EFORCE® RMS, you're equipped to drive your agency's success with ease and efficiency.

Our RMS fits law enforcement agencies and budgets of any size. And with EFORCE® on your side, you'll have a both a top-tier RMS and a fantastic company standing behind it. We believe that what happens AFTER you purchase our products is more important than what happens before.. You won't find another company with more better customer service than EFORCE, no matter what your size.

### Training and Support

Administrators desire dependable training and technical support for their RMS software. EFORCE® Customer service ensures a seamless integration of our software into your team's daily routine. What counts is the company's support when issues arise.

### Advanced Security Measures

EFORCE® prioritizes data security and privacy with robust protocols, including encryption, access controls, and audit trails. Our software ensures CJIS compliance without adding extra steps.

### Analytic Reports

Leveraging EFORCE® Software's analytical capabilities, law enforcement gains valuable insights from RMS data. This aids in identifying crime patterns, allocating resources, making data-driven decisions, and improving operational performance for enhanced public safety.

Say goodbye to report writing hassles! Our straightforward system is designed to **simplify the workload** of law enforcement agencies, so you can spend your time working in your community!

Streamlined  
User  
Experience

EFORCE® is the most user-friendly software available, which reduces complexity and minimizes the need for extensive training. Inputting and Accessing your data has never been easier!

Data Accuracy  
and Quality  
Controls

EFORCE® software incorporates data validation and verification features to ensure data accuracy and completeness, minimizing data entry errors and inconsistencies.

Simplified  
Solutions

Our software is the most flexible off-the-shelf software available, allowing agencies to tailor the system to their specific needs, workflows, and data capture requirements.

“

Reports on EFORCE® are an easy process once the system is learned. We also like the new evidence module.

**Kimberly Hansen Police Department**

”

“

EFORCE® aided our ability to become NIBRS compliant. The software is designed to ensure when your work is done, the reports sent to the FBI NIBRS will be check prior to submission which prevents kickbacks.

**Colfax County Sheriff's Office**

”
