## CIVIL PROCESS SOFTWARE

Streamline your civil paper process with **user-friendly** web-based software.

As we move closer daily to a truly paperless society, your agency can rely on EFORCE® Software. Our web-based software isn't just a record keeping platform, it's a digital ally that works together with you to achieve true efficiency! Features like robust reporting and analytics keep your administration informed and empower you to create the custom reports tailored to your agency's unique needs. EFORCE® Civil is an indispensable tool that can move your operations into the future without a hefty price tag.

EFORCE® offers the most flexible off-the-shelf software solution available to Law Enforcement! You can customize your system to work FOR you, not the other way around! Remove redundancy and modernize your agency with features like Dynamic Forms, which allows you to seamlessly map data from your software to digital documents. Slash the amount of time your team is spending on paperwork by capitalizing on the information you already have in your system!

EFORCE® Software unites your agency's efforts in Civil Paper Service, offering web-based tools that accompany deputies into the field. Access papers for service and log attempts conveniently, ensuring the entire team operates with up-to-date information for a connected approach to civil paper service.

### Modernize Operations

EFORCE® Civil is lightning fast, connected, and simple to update, so your agency will always have our latest tools at your disposal.

### Interconnected Success

Having all your software under one roof just makes sense. You eliminate lost data, redundant entry and improve collaboration by choosing EFORCE® Civil.

### Your Needs First

Simply put, EFORCE® has been in business for 20+ years, because we know that we're only successful when you are. Customer Care is who we are.

# Civil Paper Service is a collective mission, and EFORCE® Software synchronizes your agency's efforts into a User-Friendly Web-Based Software.

## Simplified Usability

EFORCE prioritizes user experience, providing an intuitive and user-friendly interface for civil process management. This design ensures that users can navigate the software easily, reducing the likelihood of errors and delays.

## Technology Advancements

We are committed to staying at the forefront of technology. The software is regularly updated to incorporate the latest features and advancements, ensuring that agencies using EFORCE always benefit from cutting-edge technology.

## Software Scalability

EFORCE software is scalable, accommodating the growing needs of agencies. Whether managing a small or large volume of civil cases, EFORCE ensures that the software scales accordingly to support increased caseloads and requirements.

“

We love that it's web-based, and how we can customize the different fields in the modules. Customer service is easy to access, and they are very responsive.
